

## Shirley Junior School French Progression

Languages at Shirley Juniors are fun, interactive and communicative. They build pupils confidence and support them to be independent learners with a thirst to learn more. Structured learning encourages creativity and freedom of expression securing the basics of the French language. Linguists will solve problems by picking out patterns in the language, gist reading and understanding texts. Fluency is a natural by-product of listening, reading and writing. Through various activities, Linguists subconsciously develop the "I can" attitude, dissolving the language barrier and being in the right mind-set to discover the unknown, working it out themselves and having a go.
