

# This #SaferInternetDay I want to talk about...

I want them to know how to fix a computer

I want them to know that there are loads of adverts when I play my games. Some of them might be inappropriate.

I want them to know that sometimes there are scary videos online when you thought it might be friendly.

I want my parents to know everything about the internet so I can be safe and now play scary games.

I want people to know about the internet and that it could have violence, stuff that is inappropriate and rude words that can hurt people's feelings.

I want my mum to know there could be swear words online.

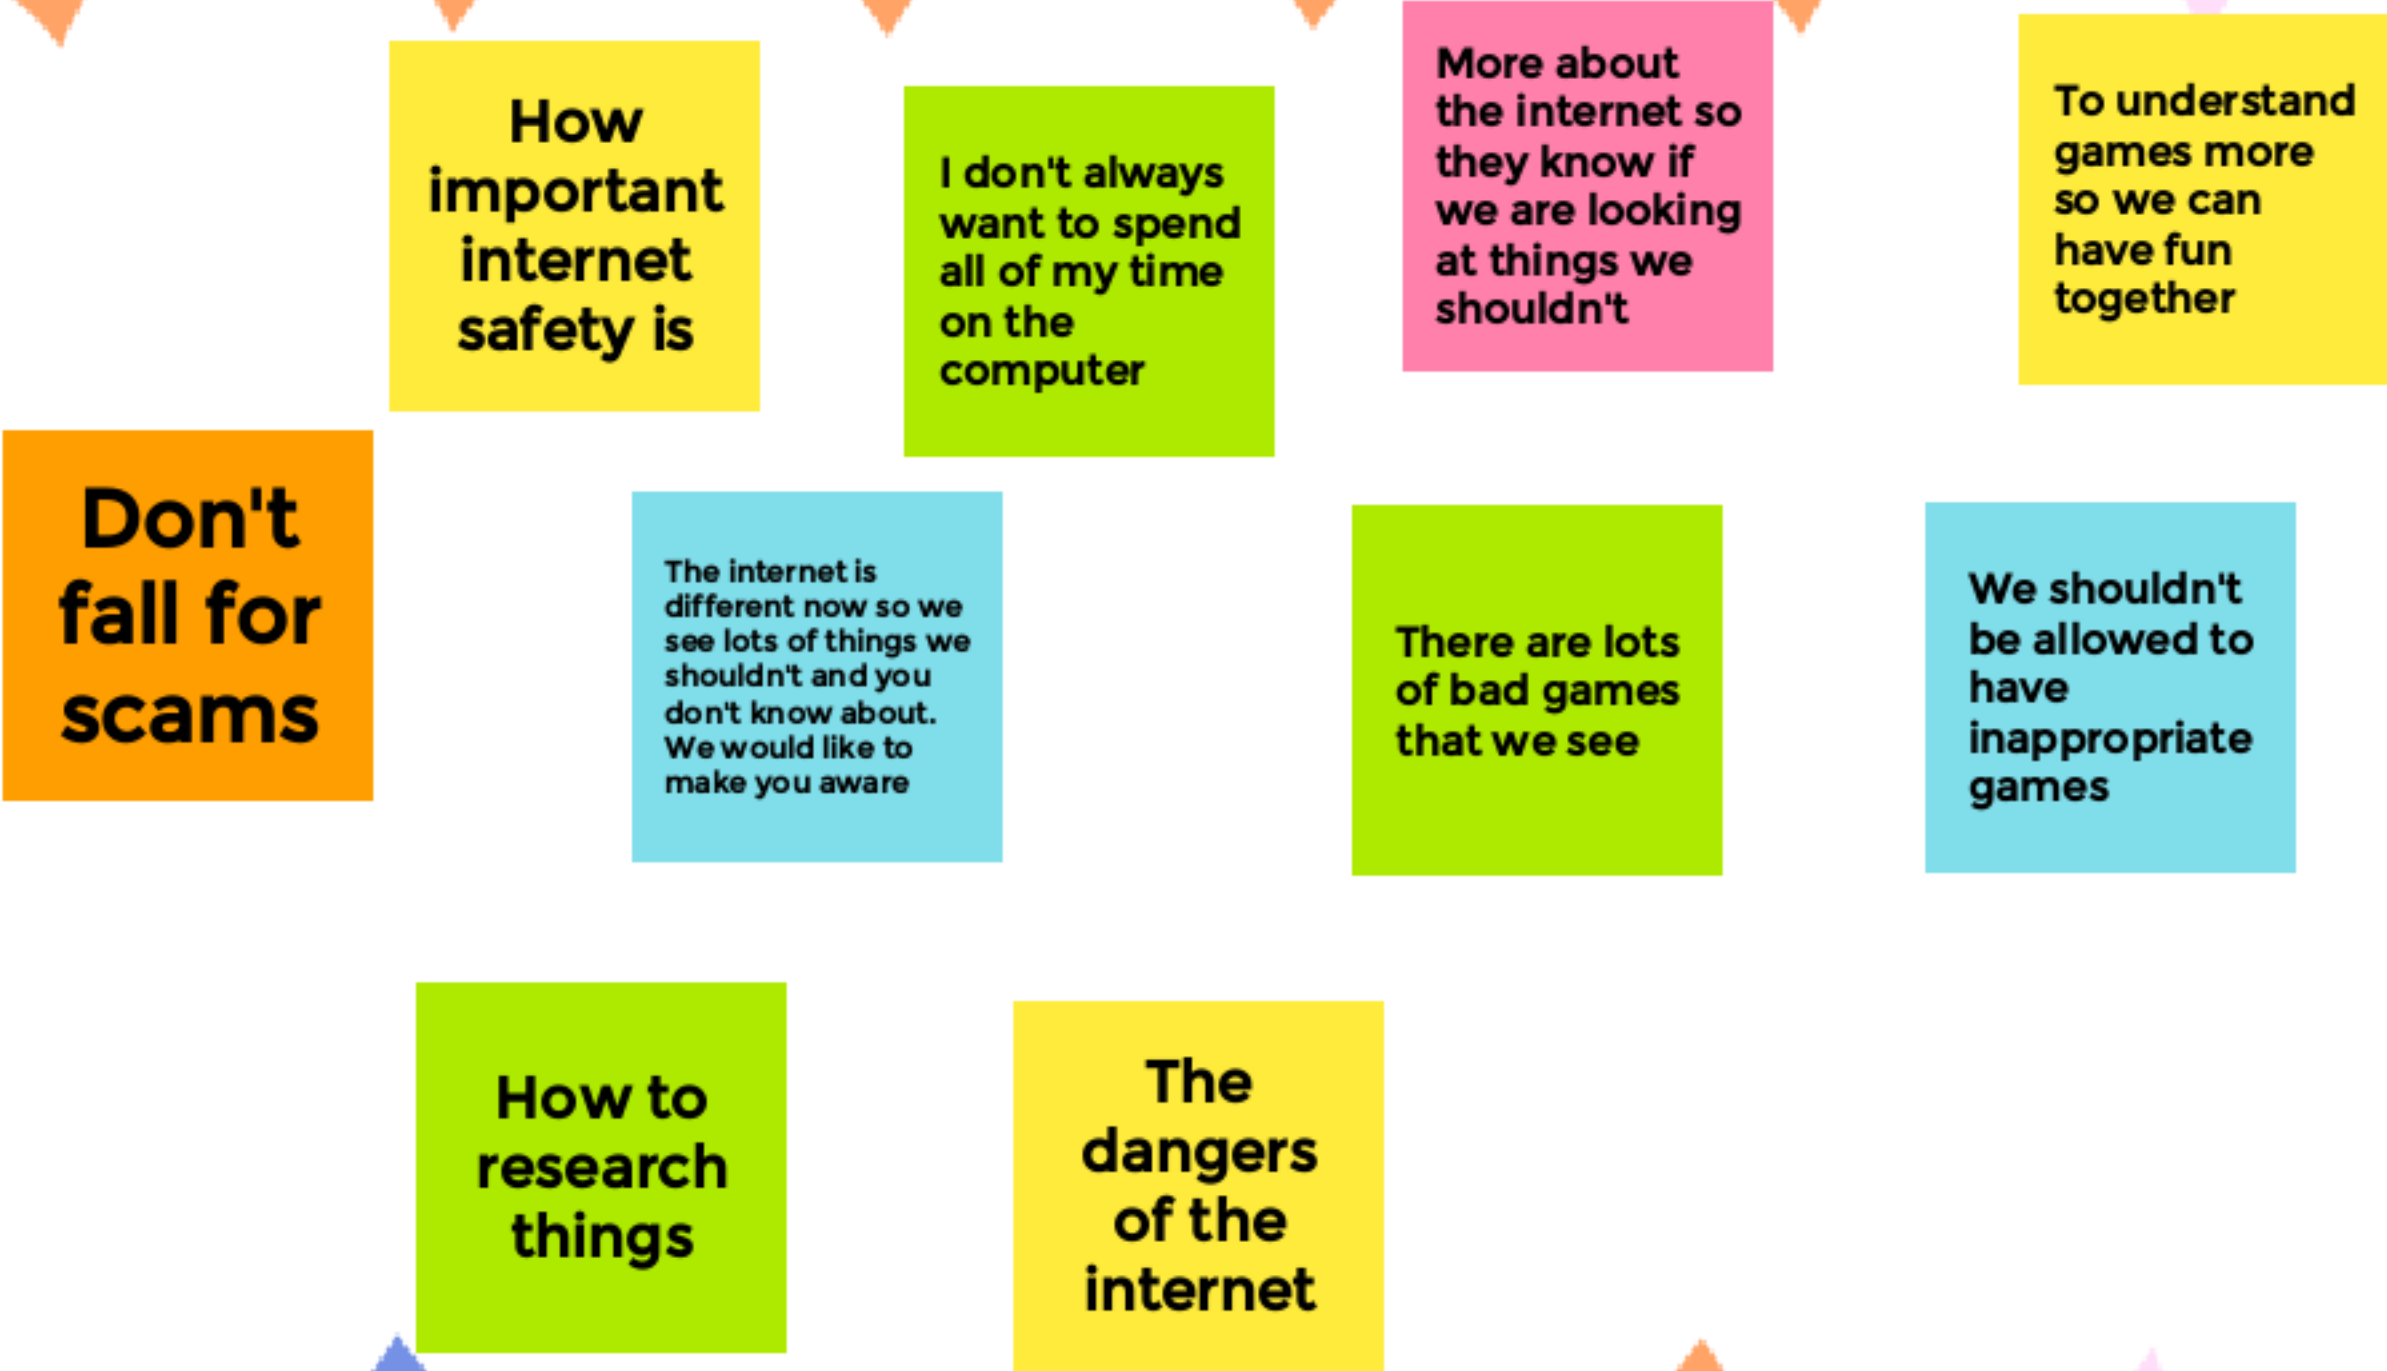

I want my parents to know how they can be safe on the internet.

I want my parents to watch us when we are online so we can watch our for dangers and so we don't buy something online by accident.

I want my brother to be safe online.

I want my parents to know which websites are secure to buy things from.

This #SaferInternetDay I want to talk about...

# This #SaferInternetDay I want to talk about...

I want to know why people are being rude online

Everyone should stay safe online so don't choose something random

Why people steal money on roblox?

What my brother watches online; they should block things

Why do people go online?

When playing games, there should be a picture of who it is so you are safe

I want to know why people try to hide their identity online

Don't go on our grown ups phone

picking things in your age range

We should not watch YouTube and be lazy- we should do more TT rockstars and spelling

# This #SaferInternetDay I want to talk about...

I would like my mum and dad to understand how to deal with hackers

I would like you to tell me if I'm allowed to play with others online.

I would like to know what you do on the internet

I would like to know how much time I can use a device for.

I would like you to learn how to play Roblox with me.

I would like to learn how you use the internet when you were younger.

I would like you to ask me what I did on my gaming device or tablet

I would like you to know the game rating of the things I play

I would like you ask about the games and videos I play or watch.

I would like you to ask if everything is ok or whether I need help with my game.

I would like you to know what to do if I see something rude online.

I would like to know how you keep me safe online at home.

I would like to understand why I can't play or watch certain things

I would like you to share how you use the internet safely.

# This #SaferInternetDay I want to talk about...

I would like you to know who I am talking to online

I would like you to ask me what I have been doing online

I want to tell you about how to be safe online

I would like you to know what I am doing online

I would like you to know how to fix glitches

I would like to know that you should not post anything online that can identify you

I would like you to know how to handle it if I did get scammed or hacked or contacted by a stranger

I would like you to know if a game is safe or not

I would like you to know how to report online abuse

I would like you know that you that you should never click on an unknown link because it might be a scam

I would like you to share what you know about being safe online

I would like you to know that you shouldn't click on strangers because that friends them

I would like you to understand how my game works so you can help me if things go wrong

I would like you to know how to block people who send inappropriate messages

# This #SaferInternetDay I want to talk about...

...why adults spend so much time online.

...why you can go on social media but we can't

...having access to talk to my friends safely

...why some of you watch videos with bad words in while I'm around - I don't like it.

...how fun gaming is.

using passwords.

...making sure a game is safe for us to play.

...why you get to choose how much screen time you get but we don't get to choose for us

...teaching you about games so you are more informed about which ones I can and can't play

teaching you how to play Roblox - it's really fun!

...which games we can and can't play and why we're not allowed to play some of them.

...showing you around the gaming world.

...playing games together that you have never played before.

...different games we can watch people play.

# This #SaferInternetDay I want to talk about...

why can't  
you pause  
an online  
game?

don't engage  
with bad  
things online

the importance of  
safe passwords

report or  
block any  
concerns

how fun  
gaming is  
online

it is always  
good to speak  
to adults

if you feel  
upset about  
something tell  
a trusted  
adult

platforms such as  
discord are good as  
you can change  
and edit messages

if someone  
insults you  
online don't  
say anything  
back

why can't  
you report  
hackers  
instantly

what ages you  
need to be to  
use social  
media

it's not okay to  
comment silly  
things on  
photos of  
people

# This #SaferInternetDay I want to talk about...

How come you get to go on technology before you go to sleep and I don't?

Why do my siblings get to play online for longer?

Why aren't people being safe online?

Sometimes people say horrible things to me online and I can't tell you because I don't want to get in trouble for being on something I wasn't supposed to be on.

Why does there have to be screen time?

Some people try to scam us

Why can't we play games rated older than us?

trust us that we will keep ourselves safe as best we can - we know what not to do

We understand that you want to keep us safe but we feel that we want a little bit of privacy.

Be careful because there's lots of toxic kids online

Some games can't be paused!

Why do you use your phone so much? If you can, we should be able to to make it fair.

Why do you get to spend all evening on technology when I only get to spend an hour?

# This #SaferInternetDay I want to talk about...

to make sure my brother does not have access to videos that are scary - he should not see things that make him scared.

the fact a game I am in the middle of just sometimes can NOT be paused!!

why they need to know my passwords and then let me play.

the fact they always find jobs whilst I am enjoying my time online.

taking over MY games! :)

to explain the actual reasons for not going on games rather than they are not your age.

the reasons and fairness for how long we can spend online.

to research and find out about my games rather than asking me questions about it!

how much time YOU spend on games online and why.

how I can talk to my friends safely online.

how to LEARN how to speak about games rather than try to sound like they know.

..not everything online is bad, we can talk about the positive.

# This #SaferInternetDay I want to talk about...

Why do you use your phone so much?

Parents spend all day online, why can't we?

Can you try and explain to me more about how tech things work

It would be nice to play more games with you

Sometimes I wonder why you just don't understand

When I'm on the computer, I'm concentrating, I'm not trying to ignore you

You don't have to talk about our games like you understand them

I know who not to play with online

What was technology like when you were younger?

How long should we be online?

Let me tell you about different apps

Some games can't be paused

# This #SaferInternetDay I want to talk about...

**Why is it ok for you to be on your device all the time, but not me?**

I stopped asking you to play games with me because you never wanted to. I still want you to.

Some online games, you ask us to pause to listen to you but they don't always have a pause button.

The thumbnail image for a Youtube video doesn't always reflect the actual content.

You assume I'm doing negative things online but I've given you no reason to think that.

Could we play some of the classic games from your childhood, so I can see what they were like?

Rather than interrupt me watching a video online, you could wait till it finishes. They all have an end.

**You don't like what I watch, but I don't like what you watch either.**

The internet's not as dangerous a place as you make it out to be, so long as I go on appropriate websites.

Some games you can't stop midway through or you lose your progress. It's really unfair when you ask me to do that when I've been working on it.

**Why do you spend so much time on your device?**

You don't need to use a device to communicate with someone in the same household.

**What kind of things do you do on the internet?**

Sometimes the video description isn't what the video actually talks about. They can be clickbait.

**Why do you always visit a website without checking if it's safe?**

**What video games did you have when you were kids?**

This #SaferInternetDay I want to talk about...

If there is a lock on the website it is safe and secure.

We know how to look for secure websites.

The internet has positives and negatives.

We don't want to look different from our friends.

I get annoyed and frustrated when I die in a game.

Sometimes we don't tell you things that happen because we are worried we will get into trouble.

Trust us to do the right thing online.

You cannot pause an online game.

If I'm playing a game and I have a few minutes till I complete the next level, please let me have that time.

This **#SaferInternetDay** I want to talk about...

To play the games online that I play

To understand how Roblox works

How fun playing games online is

...how you can help with using games consoles

What the chat functions are in different online games

Not everything online is a game. I need to be online to do my home learning

That there are group chats that are that have been just about making fun of people on Whatsapp

That most online games can't be paused

Advice about arguments on Whatsapp but not to be made to leave group chats because it can make you feel left out
