

## Qualities I share:

- Independent
- Hardworking
- Co-operator
- Resilient
- Listener
- Communicator
- Caring
- Music

The Penorcusky is a hybrid of the Husky, Emperor Penguin and Orca arctic animals. The Husky's **independent** nature reflects it's ability to play to his strengths and strive for goals as well as **resilience** in harsh conditions. Emperor penguins are **sociable** and **cooperative** working together to solve problems as a team. Orcas are excellent (and musical!) **communicators**, which means that they **listen** as well as share their ideas.
