

Year 4

February Half-Term Holiday Homework

After half term Year 4 will be investigating the Amazon rainforest.

Your challenge is to research and find out everything you can about a creature that lives in a rainforest.

You should think about:

- Is it predator or prey?
- Is it : mammal, reptile, fish, bird or amphibian?
 - Its habitat, where it lives.
- Any adaptations it has, special skills it has to survive.
 - Any thing unique that you find interesting.
- Where can it be found. which rainforest and country can you find it in?

We would like you to present your research in a really exciting way. It could be a poster, model, book or something else. If you produce your work on a computer please bring in a printed copy as we would like to put them in an exhibition.

Due Date: Monday 24th February (1st day back)
(we will be exhibiting on this day)

We are really looking forward to seeing what you create!

Places to look for factual information:

- Libraries— Non-fiction section usually has books on the rainforest where you can find some information.

- Colchester Zoo has activities pack on the rainforest with some animal fact files
