

Summer 2 Week 7

Make a Board Game

What is your favourite board game?

This week, we would like you to create a board game that reflects your experiences in your current year group, in what has been the craziest year ever!

First of all, write down 5 positive things that have happened this year. You should include things that you did in school, like going on a trip, and things that happened in lockdown.

Here are a few examples:

- Earned my pen license
- Went to Butser Farm
- Had a speaking part in 'Ticket to Ride'
- Went on a woolly mammoth hunt
- Got a new paddling pool

If your players land on these events, then something good will happen like:

- roll again
- move forward 3 spaces

- jump to square 10
- go up a ladder

Now, you need to think of 3 or 4 negative things, for example:

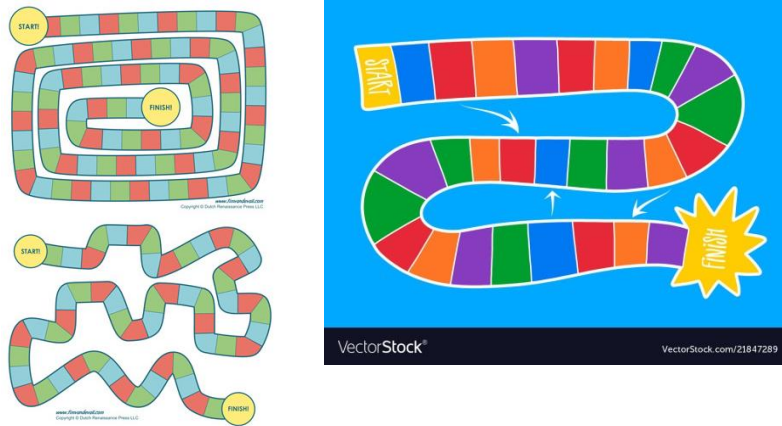

- spilt my water bottle on my work
- lost my glue stick
- couldn't go to Avon Tyrell
- missed my friends during lockdown

If your players land on these squares, then something sad will happen like:

- miss a go
- go back 3 spaces
- go back to the start
- go down a ladder

The design of your game is up to you BUT it should look colourful and inviting to play, like these examples:

You will also need to make counters for all your players and you will probably need a dice. There is one here that you can make or you can get one online at <https://www.online-stopwatch.com/chance-games/roll-a-dice/>

We would love to see a photo of you and your family playing your finished game!
